## Notes to Interim Financial Statements

### General Information

Muktinath Bikas Bank Limited ('the bank') is domiciled and incorporated in Nepal under the Companies Act, 2063 on 22nd Chaitra 2062. The Bank received the license to commence banking operations as a 'B Class' financial institution from Nepal Rastra Bank on 18th Poush, 2063. The bank is a limited liability company having its shares listed on Nepal Stock Exchange. The registered office of the Bank is situated at Kathmandu Plaza, Kamaladi-28, Kathmandu, Nepal.

The group financial statement includes the Muktinath Capital Limited (formerly known as Vibor Capital Limited) which is the subsidiary of the bank and the bank's associate company, Muktinath Krishi Company Limited.

### 1. Basis of Preparation

The interim financial statements of the Bank have been prepared in accordance with Nepal Financial Reporting Standards (NFRS) : NAS 34 Interim Financial Reporting pronounced by The Institute of Chartered Accountants of Nepal (ICAN).

The interim financial statements have been prepared on the formats mandated by the Directive No. 4 of The Unified Directives as made applicable by the Nepal Rastra Bank.

The Condensed Consolidated Interim Financial Statements comprise of:

☐ Condensed Consolidated Statement of Financial Position

☐ Condensed Consolidated Statement of Profit or Loss,

☐ Condensed Consolidated Statement of Other Comprehensive Income,

☐ Condensed Consolidated Statement of Changes in Equity,

☐ Condensed Consolidated Statement of Cash Flows

☐ Notes to Interim Financial Statements and

☐ Ratios as per NRB Directive

### Functional and Presentation Currency

The Financial Statements of Entity are presented in Nepalese Rupees (Rs.), which is the currency of the primary economic environment in which the Entity operates.

There was no change in Entity's presentation and functional currency during the year under review.

### 2. Statement of Compliance with NFRS

The interim financial statements have been prepared in accordance with Nepal Financial Reporting Standards (NFRS) : NAS 34 Interim Financial Reporting, as published by the Accounting Standards Board (ASB) Nepal and pronounced by The Institute of Chartered Accountants of Nepal (ICAN) and in compliance with BAFIA 2073, Unified Directives issued by Nepal Rastra Bank and all other applicable laws and regulations except for the NRB guidelines on Excepted Credit Loss (ECL) 2024. The Bank is actively working to ensure compliance with NFRS 9 and NRB guidelines and shall submit the revised financial statements to the regulator upon completion of the necessary procedures.

The interim financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Bank's annual financial statements.

### 3. Use of Estimates, Assumptions and Judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

### 4. Changes in Accounting Policies

The Bank applies its accounting policies consistently from year to year except where deviations have been explicitly mandated by the applicable accounting standards.

# Muktinath Bikas Bank Limited

## Notes to Interim Financial Statements

### 5. Significant Accounting Policies

#### a. Basis of Measurement

The Financial Statements of Bank have been prepared on the historical cost basis, except for the following material items:

Item	Basis of Measurement
• Quoted Investment Classified under Available for Sale	Fair Value
• Retired Benefit Obligation	Present value of defined benefit obligation less the fair value of the plan assets

#### 5.1 Basis of Consolidation

##### a. Business Combination

Business combinations are accounted for using the acquisition method in line with the NFRS 03 "Business Combination". The consideration transferred in the acquisition and identifiable net assets acquired are measured at fair value. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in profit or loss immediately. Transaction costs are expensed as incurred, except if they are related to the issue of debt or equity securities.

The consideration transferred does not include amount related to the settlement of pre-existing relationships. Such amount are generally recognised in profit or loss. Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not re-measured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

##### b. Non-Controlling Interest

Changes in the Bank's interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners in their capacity as owners. Adjustments to non-controlling interests are based on a proportionate amount of the net assets of the subsidiary. No adjustments are made to goodwill and no gain or loss is recognised in profit or loss.

##### c. Basis of Consolidation

The Consolidate Financial Statement includes the financials of the subsidiary from the date the control commences until the date that control ceases. In preparing the consolidated financial statements, the financial statements are combined by adding the like items of assets, liabilities, equity, income, expenses and cash flows of the parent line by line with those of its subsidiary and eliminating the transaction with the companies within the group.

The consolidation of the group has been carried using NFRS 10 : Consolidated Financial Statements by applying the carve out issued by the Institute of Chartered Accountants of Nepal which states: "A parent shall prepare consolidated financial statements using uniform accounting policies for like transactions and other events in similar circumstances unless it is impracticable to do so."

Investments in associates are accounted for in financial statements as per equity method although associate's financial statements are not prepared using uniform accounting policies for like transactions and events in similar circumstances as it is impracticable to do.

##### d. Loss of Control

When the Group loses control over a Subsidiary, it derecognises the assets and liabilities of the Subsidiary, and any-related NCI and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former Subsidiary is measured at fair value when control is lost and is accounted depending on the level of control retained.

##### e. Transaction elimination on consolidation

Intra-group balances, transactions, and any unrealised income and expenses arising from intra-group transactions are eliminated in preparing the Consolidated Financial Statements. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

### 5.2 Cash & Cash Equivalent

Cash and cash equivalent comprise the total amount of cash-in-hand, balances with other bank and financial institutions, money at call and short notice, and highly liquid financial assets with original maturities period of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value and are used by the bank in the management of its short-term commitments.

The cash and cash equivalents for the purpose of cash flow statement include cash in hand, balances with banks, money at call and money market funds.

### 5.3 Financial Assets and Financial Liabilities

#### Recognition

The Bank recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are measured at fair value on initial recognition. Transaction costs in relation to financial assets and financial liabilities, other than those carried at fair value through profit or loss (FVTPL), are added to the fair value on initial recognition. Transaction costs in relation to financial assets and financial liabilities which are carried at fair value through profit or loss (FVTPL), are charged to the statement of profit and loss.

#### Classification

The financial assets and liabilities are subsequently measured at amortized cost or fair value on the basis of business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

**Financial assets are classified under three categories as required by NFRS 9, namely:**

#### Measured at amortised cost:

Financial assets that are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the effective interest rate ('EIR') method less impairment, if any. The amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.

#### Measured at fair value through other comprehensive income:

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI).

Equity Instrument which are not held for trading and initially recognized as held for trading for which the bank makes an irrevocable election to carry the changes in fair value of the instrument through OCI are measured at Fair Value through other Comprehensive Income.

#### Measured at fair value through profit or loss:

The bank classifies the financials assets as fair value through profit or loss if they are held for trading or designated at fair value through profit or loss.

Any other financial asset not classified as either amortised cost or FVTOCI, is classified as FVTPL.

**Financial liabilities are classified under three categories as required by NFRS 9, namely:**

#### Financial liabilities at fair value through profit or loss:

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Upon initial recognition, transaction cost are directly attributable to the acquisition are recognized in Statement of Profit or Loss as incurred. Subsequent changes in fair value is recognized at profit or loss.

# Muktinath Bikas Bank Limited

## Notes to Interim Financial Statements

### Financial liabilities measured at amortised cost:

All financial liabilities other than measured at fair value through profit or loss are classified as subsequently measured at amortized cost using effective interest method.

### De-recognition

The Bank derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

### Determination of Fair Value

The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The banks follows three levels of the fair-value-hierarchy are described below:

**Level 1:** Quoted (unadjusted) prices for identical assets or liabilities in active markets ;

**Level 2:** Significant inputs to the fair value measurement are directly or indirectly observable or valuations of quoted for similar instrument in active markets or quoted prices for identical or similar instrument in inactive markets ; and

**Level 3:** Significant inputs to the fair value measurement are unobservable.

Investment in Unquoted Equity Instrument are carried cost as the market price of such shares could not be ascertained with certainty at the reporting date.

### Impairment

The Bank reviews its individually significant loans and advances at each reporting date to assess whether an impairment loss should be provided in the Statement of Profit or Loss. The Management's judgement is extensively used in the estimation of the amount and timing of future cash flows when determining the impairment loss. These estimates are based on assumptions about a number of factors and hence actual results may differ, resulting in future changes to the provisions made.

The individual impairment provision applies to financial assets evaluated individually for impairment and is based on Management's best estimate of the present value of the future cash flows that are expected to be received. In estimating these cash flows, Management makes judgements about the number of factors including a borrower's financial situation and the net realisable value of any underlying collateral. Top borrowers forming part of 25% of the portfolio are tested for individual impairment. Each impaired asset is assessed on its merits to estimate the recoverable amount of cash flows.

A collective impairment provision is established for:

- groups of homogeneous loans and advances and investment securities which are held-to-maturity, that are not considered individually significant; and
- groups of assets that are individually significant but that were not found to be individually impaired.

The collective impairment is carried using the statistical modelling such as historical trends of probability of defaults, timings of recoveries, and current economic and market conditions which may warrant for the loss being greater than the suggested by the historical trends.

For the purpose of collective assessment of impairment bank has categorized assets into following broad products as follows:

- Home Loan
- Hire Purchase Loan
- Personal Loan
- Business Loans
- Small & Micro Credit
- Others

### Carve out adopted for assessment of impairment charge

The bank has opted to apply carve out on impairment of loans and receivables. Accordingly, individual and collective impairment loss amount calculated as per NFRS is compared with the impairment provision required under NRB directive no. 2, higher of the amount derived from these measures is taken as impairment loss for loans and receivables.

### 5.4 Trading Assets

Financial assets are classified as trading assets (held for trading) if they have been acquired principally for the purpose of selling in the near term, or form part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent pattern of short-term profit taking. They are recognised on trade date, when the bank enters into contractual arrangements with counterparties, and are normally derecognised when sold. They are initially measured at fair value, with transaction costs taken to profit or loss. Subsequent changes in their fair values are recognised in profit or loss in 'Net trading income'.

### 5.5 Derivative Assets and Derivative Liabilities

Derivative instruments includes transactions like interest rate swap, currency swap, forward foreign exchange contract etc. held for trading as well as risk management purposes. Derivative financial instruments are initially measured at fair value on the contract date and are subsequently re-measured to fair value at each reporting date.

The bank do not have any derivative instrument during the reporting period.

### 5.6 Property and Equipment

**Recognition and measurement:** Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures directly attributable to the acquisition of the asset.

**Depreciation:** The Bank depreciates property, plant and equipment over the estimated useful life on a straight-line basis from the date the assets are ready for intended use. Assets acquired under finance lease and leasehold improvements are amortized over the lower of estimated useful life and lease term. The estimated useful lives of assets for the current and comparative period of significant items of property, plant and equipment are as follows:

Type of Asset	Useful Life
Buildings	50 Years
Leasehold Properties	8 Years
Computer & Accessories	5 Years
Vehicles - Two Wheeler	5 Years
- Four Wheeler	7 Years
Furniture & Fixtures	5 Years
Equipment & Others - Equipment	5 Years
- Others	2 Years
Intangibles Assets	5 Years

The Bank adopts cost model for entire class of property and equipment. The bank has not measured the any property and plant at revaluation model and at fair value. The items of property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Assets having acquisition cost less than or equal NPR 10,000 have been written off as an expense in the Statement of Profit or Loss.

### 5.7 Goodwill/Intangible Assets

Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired in Business Combination is recognised as goodwill. Goodwill is measured at cost less any accumulated impairment losses. Goodwill is reviewed for impairment annually, or more frequently, if events or changes in circumstances indicate that the carrying value may be impaired.

Intangible assets are recognised separately from goodwill when they are separable or arise from contractual or other legal rights, and their fair value can be measured reliably. These intangible assets are recognised at historical cost less impairment less amortisation over their estimated useful life.

### 5.8 Investment Property

Investment properties include land or land and buildings other than those classified as property and equipment and non-current assets held for sale. Generally, it includes land, land and building acquired by the Bank as non-banking assets but not sold as on the reporting date.

The Bank holds investment property that has been acquired through enforcement of security over the loans and advances.

### 5.9 Income Tax

Tax expenses comprises of current tax and deferred tax.

#### a. Current Tax

Current tax is the income tax expense is recognized in the statement of Profit or Loss, except to the extent it relates to items recognized directly in equity or other comprehensive income in which case it is recognized in equity or in other comprehensive income. Current tax is the amounts expected or paid to Inland Revenue Department in respect of the current year, using the tax rates and tax laws enacted or substantively enacted on the reporting date and any adjustment to tax payable in respect of prior years.

#### b. Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the balance sheet and the amounts attributed to such assets and liabilities for tax purposes. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated using the tax rates expected to apply in the periods in which the assets will be realised or the liabilities settled, based on tax rates and laws enacted, or substantively enacted, by the balance sheet date. Deferred tax assets and liabilities are offset when they arise in the same tax reporting group and relate to income taxes levied by the same taxation authority, and when the group has a legal right to offset.

### 5.10 Deposit, debt securities issued and subordinated liabilities

#### a. Deposits:

Deposits by banks & customers are financial liabilities of the bank as there is an obligation to deliver cash or financial assets back to the depositing bank or customer and are initially recognised at fair value, plus for those financial liabilities not at fair value through profit and loss. The transaction price is considered as the fair value for measuring the deposits.

#### b. Debt Securities Issued

Debt Securities are initially measured at the fair value less incremental direct cost and subsequently at their amortised cost using effective interests method except where the bank designates liabilities at fair value through profit or loss.

#### c. Subordinate Liabilities

These are the liabilities subordinated, at the event of winding up, to claims of depositors, debt securities issued and other creditors. It shall include redeemable preference shares, subordinated notes issued, borrowings etc. During the reporting period the bank did not have any such liabilities.

### 5.11 Provisions

A provision is recognized if as a result of a past event, the bank has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. The amount recognised is the best estimate of the consideration required to settle the present obligation at the reporting date, taking in to account the risks and uncertainties surrounding the obligation at that date. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimates and are reversed if there is not the probability of outflow of resources.

The contingent liability are the liabilities for which it is uncertain as to whether it will become an obligation as it depends on the occurrence of an uncertain future event. These amounts are off-balance sheet items and are disclosed when there is a possible obligation that may but probably will not require an outflow of resources.

A provision for onerous contracts is recognized when the expected benefits to be derived by the Bank from a contract are lower than the unavoidable cost of meeting its obligations under the contract.

### 5.12 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to Bank and the consideration can be reliably measured. The following specific recognition criteria shall also be met for revenue recognition:

#### a. Interest Income

Interest income are recognised in profit or loss for all interest bearing instruments on an accrual basis using the effective interest method. The effective interest rate is the rate that exactly discounts the expected estimated future cash payments and receipts through the expected life of the financial asset or liability. Where financial assets have been impaired, interest income continues to be recognised on the Gross value, based on the original effective interest rate.

#### b. Fee and Commission Income

Fees and commissions are generally recognised on an accrual basis when the service has been provided.

#### c. Dividend Income

Dividend income received from equity shares is recognized in the books when the bank's right to receive the dividend is established.

#### d. Net Trading Income

Net Trading Income includes all gains and losses from changes in fair value, related capital gain/loss and dividend from financial assets 'Held for Trading'. Trading expenses are deducted from the trading income and the amount net of trading expenses are disclosed in statement of profit and loss.

#### e. Net Income from Other Financial Instrument at Fair Value Through Profit or Loss

Net income from other financial instrument measured at fair value through Profit or Loss includes all gains/(losses) arises from the revaluation of financial instrument at fair value.

#### f. Interest Expenses

Interest expense on all financial liabilities including deposits are recognized in profit or loss using effective interest rate method.

The Bank uses ASB carve- outs as mentioned in 2.6 above and treat coupon rate as effective interest rate.

### 5.13 Employee Benefits

#### a. Short term employee benefits

The Bank's short term employee benefits mainly include wages, salaries, allowances, social security expenses, bonuses as provided in the law and other employee related expenses. Short term employee benefits are measured on an undiscounted basis and are charged to statement of profit and loss as and when the related service is provided.

#### b. Long term employee benefits

##### i. Defined Contribution Plans

The contributions to defined contribution plans are recognised in profit or loss as and when the services are rendered by employees which the bank contributes fixed percentage of the salary to the Employee's Provident Fund. The Bank has no further obligations under these plans beyond its periodic contributions.

##### ii. Defined Benefit Plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The bank's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in return for their service in current and prior periods. That benefit is discounted to determine its present value. Any unrecognized past service costs and the fair value of any plan assets are deducted. The discount rate is the yield at the reporting date on corporate bonds, that have maturity dates approximating the terms of the bank's obligation and that are denominated in the currency in which the benefits are expected to be paid. The defined benefit obligation is recognised on the basis of the report of qualified actuary using the projected unit credit method. The bank recognizes all actuarial gains and losses arising from defined benefit plans immediately in other comprehensive income and all expenses related to defined benefits plans in employee benefit are expensed in profit and loss account. When the calculation results in a potential assets for the group, the recognized assets is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Measurements of the net defined benefit liability comprise actuarial gains and losses. The return on plan assets (excluding interest income) and the effect of the assets ceiling (if any excluding interest) are recognized immediately in Other Comprehensive Income. The bank determines the net interest expense (income) on the net defined liability (assets) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefits liability (assets), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefits payments. Net interest expenses and other expenses related to defined benefit plans are recognized as personnel expenses in Statement of profit and Loss.

The Bank provides gratuity and leave encashment as the defined benefits plans to its employees.

### 5.14 Leases

The determination of whether an arrangement is a lease, or it contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

#### a. As a lessee

The Bank recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Bank's incremental borrowing rate. Generally, the Bank uses its cost of fund rate as the discount rate.

#### b. Short-term leases and leases of low-value assets

The Bank has elected not to recognize right-of-use assets and lease liabilities for short-term leases of machinery that have a lease term of 12 months or less and leases of low-value assets.

### 5.15 Foreign Currency Translation

The financial statements are presented in Nepalese Rupees which is the functional and presentation currency of the Bank.

Transactions in foreign currencies are initially recorded in the relevant functional currency at the rates prevailing at the date of the transaction.

### 5.16 Share Capital and Reserves

Shares are classified as Equity when the Bank has an unconditional right to avoid delivery of cash or another financial asset, that is, when the dividend and repayment of capital are at the sole and absolute discretion of the Bank and there is no contractual obligation whatsoever to that effect. Incremental costs directly attributable to the issue of an equity instrument are deducted from the initial measurement of the equity instruments considering the tax benefits achieved thereon.

Dividends on ordinary shares and preference shares classified as equity are recognized in equity in the period in which they are declared.

Reserves are the allocation out of profit or retained earnings. These are created as statutory requirement, accounting standard requirement and bank's own requirement.
